

VT2000NC Noise Cancelling Headset

Noise cancelling cardioid microphone filters up to 80% of background noise.

300° Adjustable Microphone Boom

Active Protection™ technology for hearing protection

Ultra Flex™ microphone wires allow more than 20,000 boom rotations

Connects to either 2.5 mm or RJ9 Quick Link (QL™) cable.

Specifications	
Features	
Receiver	Dynamic
Microphone	Electret
Microphone Boom	300°
Mechanical Specifications	
Weight	55g
Cord	1.0m
Contacts	Gold plated phosphor bronze
Insertion Cycles	10000
Storage Temperature Range	-25°C to 65°C
Electroacoustical Specifications	
Receiver	
Diameter	27mm
Frequency Range	300 Hz to 3400 Hz
Impedance	150Ω ±15%
Sealed Sensitivity @ 1kHz	103 ±3dB
THD @ 1 kHz	<5%
Transmitter	
Frequency Range	100 Hz - 10 kHz
Directivity	Cardioid
Sensitivity @ 1kHz	-49 ±3dB
